bamboo arbor manual

1-800-574-7248

Include in the package are the following parts, all necessary hardware are attached to the parts

- 1) one top rack
- 2) two side panels with bracers

First lay down the top rack and the two side panels side way and attach as shown on the picture, match the pre drilled holes and secure them together with the bolts and nuts attached.

Then put the unit in upright position and installed the four corner bracers.

Thank for your business
