

# Villa Square/Rectangular Planter

## Parts Included:

Cedar Side Panels– 4  
Cedar Bottom Piece– 1 (2 if rectangular planter)  
Bolts– 8  
Nuts– 4

## Tools Needed:

Flathead Screwdriver  
Phillips Screwdriver

1. First setup the 4 side panels. Using the nuts provided, use a flathead screwdriver so that the nut is horizontally aligned as shown in Fig. 1, then using a Phillips screw driver screw in the bolts until they lock into place as shown in Fig. 2. Repeat this step until all four corners are locked in, completing the main “frame” of the planter box as shown in Fig. 3.

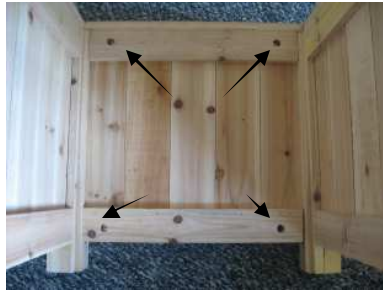

Fig. 1. Insert Nuts

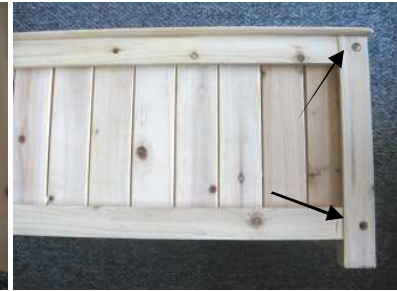

Fig. 2. Insert Bolts

Fig. 3 Four sides completed

2. After setting up the main frame, use the cedar bottom piece (Or 2 if you purchased a rectangular model) to install the bottom of the planter as shown in Fig. 4. For stronger support, you can staple, nail, or screw the bottom in if necessary.
